~~Dear Ms. Baron,~~

Leanne Velasco has filled us in on the special contribution you and your Brighter View Day Program participants made to the families of Sunday Friends. We are impressed and truly grateful.

How sweet that your group assembled snack packs! I hope they enjoyed the activity and understand how much they have brightened the day of others.

The families who are receiving your snack packs struggle to make ends meet and stay in housing. A gift like this helps to take the edge off of their daily challenges and to lighten their stress. Most important, everyone needs to know that the community cares about them.

I hope your snack-packers feel good about their giving activity. Please tell them thank you from all of us at Sunday Friends.

Sincerely,
Janis Baron, Sunday Friends' founder and Advisory Board Member
